

## COMMUNICATE

University POLITEHNICA of Bucharest in partnership with the EUROTRAINING SOLUTION SRL (Romania), S.C. INFORELEA (Italy), - Lodz University of Technology / POLITECHNIKA LODZKA (Poland) and UNIVERSITY OF RUSE "Angel Kanchev" (Bulgaria) started the project “ *Cooperation partnership for innovation and development of green skills & knowledge enabling transformation and change for greening jobs and enterprises*”, with acronym **educate4green**, on December 2022, under ERSMUS+ programme, 2021-2027.

Through an international partnership between RO, IT, PL, and BG, the project “Cooperation partnership for innovation and development of green skills & knowledge enabling transformation and change for greening jobs and enterprises - educate4green”.

aims to accelerate the development of green knowledge and skills of students, teachers and practitioners by designing, implementing and scaling-up an Innovative Educational Model framed by transnational, trans-disciplinary and forward-looking approaches in business & engineering fields toward greening jobs & enterprises, and a sustainable growth.

The project runs for 36 months and includes 3 objectives:

To decrease the current green skills gap by designing an Innovative Educational Model, that support teaching and learning for green knowledge & skills, and for greening jobs & enterprises.

To strengthen the transformative potential of partners organizations for greening & digital readiness, by engaging of HE learners (HE students, teachers, and practitioners) in peer-learning of forward-looking curricula in a mix of blended learning sessions.

Share the results of Innovative Educational Model and promote transformational changes toward green & digital transition, by engagement of transnational learners in gathering lessons learnt, transnational participants in scaling-up trans-disciplinary and forward-looking approaches in business & engineering fields, for development of green skills and sustainable growth.
